

SECURITY EXPLORATIONS PRICING

Effective Date: 22 Jan 2019

GENERAL PRICING

We believe quality security evaluation and security research services do not need to be expensive.

Our rates are constructed, so that they are competitive and affordable for businesses of various sizes and geographic locations (Poland along Western Europe and the US).

Our rates start from 16000 EUR per month of our services (from 100 EUR per hour). The actual pricing primarily depends on a target of the evaluation as well as the complexity and scope of the analysis process (i.e. code size, technologies used, source code vs. reverse engineering analysis).

Sample pricing

PROJECT TYPE	DURATION	PRICING	DESCRIPTION	DELIVERABLES
Security evaluation	3 months	48000 EUR	<ul style="list-style-type: none"> target is hardware or software developed by a customer, access to binary and source codes along with a technical documentation provided by the customer 	<ul style="list-style-type: none"> Technical report presenting the results of the security evaluation (details of all successful attack scenarios and weaknesses found) Source and binary codes for any Proof of Concept codes and tools developed during the evaluation, Presentation of the results of the evaluation during a 1-day meeting at a customer headquarter.
	6 months	86400 EUR (10% discount included)		
Custom security research	3 months	57600 EUR	<ul style="list-style-type: none"> target is hardware or software of a 3rd party vendor, access to hardware, software (binary codes / 	
	6 months	103680 EUR (10% discount)		

		included)	installation media) provided by the customer
